

INDEX

TO THE SEVENTEENTH VOLUME, OR THE SECOND OF THE NEW SERIES.

	Page.		Page.
A BORIGINES turn smelters		Blossom of the peach tree infect-	
of ore	152	ed	94
Acid æptic	316	Bladder, hernia of	69
Acid sulphuric, in gangrene	81	Bliss J. C. Mr. performs trach-	
Acids, their combination with		eotomy for croup in an adult	
quick-silver	48	patient	377
Akerly S. Dr. describes a case		Bliss J. C. Mr. describes hydro-	
of spontaneous mortification	66	cephalus in an adult	277
Akerly on a case of pneumonia	67	Blood, experiments on	205
Akerly makes morbid examina-		Blood-letting in hydrophobia	19
tions	70	Blood-letting, how to perform	170
Akerly on varicose veins	306, 384	Blatchley C. C. Dr. prescribes	
Alcoholic spirit, its analysis	369	emetics in pleurisies.	381
Alden T. Mr. shows the durabi-		Bogart H. Mr. writes on angina	
lity of carbonated maize	92	pectoris	74
Ammonia, composition of	15	Bones diseased, removal of	204
Amputation of the hip	184	Botany promoted	156
Anatomy, system of	263	Bouriat Mr. Dr. inoculates sheep	
Anderson Andrew Dr. makes		for the claveau	231
experiments on Bone-set	73	Brackenridge's H. Mr. views of	
Aneurism femoral, operation for	196	upper Louisiana	258
Aneurism popliteal, cure by ice	199	Brain, its instrumentality in pro-	
Angina pectoris discussed	74	ducing animal heat	79
Animals huge, in the ocean	388	Brain, dropsy of	277
Animal matter, decomposition of	146	Brain, functions of	401
Antiquities American	236—263	Brande Mr. makes experiments	
Anthrax, successfully treated	64	on blood	205
Armies, French, their surgery	297	Brodie Mr. on the production of	
Arkansa, its salt plains	406	animal heat	78
Arthritis, painful case of	124	Bruce A. Dr. cultivates Ameri-	
Artillery produces severe explo-		can mineralogy	87
sions	354	Bruce's mineralogical journal	415
Arts, society of at Albany	151	Cæsarean operation successful	188
Arts and sciences favoured in		Canada visited by Hennepin	64
New-York	95	Cancer treated by gangrenous	
Aspinwall G. Mr. investigates		ichor	81
the disease of peach trees	394	Canine madness	19
Austrian campaigns	340	Canteens of zinc not good	88
Balfour Dr. on the re-union of		Cannon, effects of their explo-	
separated parts	408	sions	363
Ball J. Dr. upon bills of morta-		Canvass-back duck, or seetog	253
lity	76, 203, 297, 397	Carbonated maize, duration of	93
Bath, warm and hot explained	368	Catalogue of N. American plants	156
Battle-surgery of the French	301	Catheters, use of	168
Becarie F. Dr. recommends a		Cave, an extraordinary one	391
new remedy for rabies canina	82	Census of the U. States for 1810	96
Beck T. Dr. delivers an ad-		Charcoal practically treated	78
dress to the society of arts	151	Cicuta maculata poisonous	303
Bergall fish described	284	Claveau or sheep-pox	231
Birds of the United States	247	Coffee, how to prepare	97

	Page.		Page.
Colleges, medical in U. States	102	Food, directions for preparing	350
Colour of the blood	207	Foot M. Dr. gives a medical ac-	
Combustion, experiments on	77	count of spurred rye	271
Connecticut winter epidemic	213	Fractures considered	273
Coot, or fulica, seen at N. York	251	French surgical arrangement	298
Corn, Indian, burned	92	Fruit of the peach tree diseased	394
Correspondence, medical and sur-		Gall's craniology	401
gical	64, 177, 271, 375	Gallapagos tortoise described	309
Coughing of stones from the		Gallapagos tortoise dissected	404
lungs	183	Gangrene, treatment of	81
Cranioscopy, speculations on	401	Gastrotomy successful	186
Cruelty of certain experimenters	176	Gastrotomy, American, cases of	194
Croup in adult	377	Gazetteer of New-York	153
Cuttle fish, enormous	390	Glandular diseases	333
Davidge J. B. Dr. publishes a		Gout, interesting case of	116
book on nosology	360	Gunpowder, explosion of	352
Decomposition of organic matter	146	Gun-shot wounds	84
Dempsey S. Dr. prepares acetate		Haüy Mr. analyzes a New-	
of copper	90	York mineral	86
Detonation, effects of	352	Hayden H. Mr. writes on dis-	
Disease, alarming in Virginia	398	eased tonsils	128, 234, 323
Disease, unity of, criticized	31	Health of soldiers, directions for	343
Disease, nature and cure of	368	Hearing affected by detonation	354
Diseases, maternal, how they af-		Heat, animal	78
fect the fœtus	7	Heat of the body, to preserve	350
Diseases cured by mercury	45	Heat evolved by burning	78
Diseases of New-York	76, 201, 295,	Heat, how to apply remedially	368
396		Hemlock a poisonous plant	303
Diseases nosologically arranged	360	Hennepin Friar, an early travel-	
Dorsey, J. S. Dr. publishes ele-		ler through North-America	62
ments of surgery	158	Hernia of the bladder	69
Dress, remarks on	356	Herring of New-York, figured	
Dropsy, universal	274	and described	288
Dropsy of the brain	277	Hot water, its medical qualities	345
Dysentery not contagious	341	Hip-joint, amputation at	184
Ears affected by explosions	354	Hungarian fevers	341
Eau medicinale in gout	127	Husson's Eau medicinale	126
Eberle J. Dr. cures epilepsy by		Hydrocephalus in an adult	277
sugar of lead	375	Hunt H. Dr. inquires into the	
Elements of surgery	158	Virginia epidemic of 1814	400
Emetics in pleuritic ailments	381	Hydrogene, speculations on	18
Enteritis, case and dissection of	71	Hydrophobia, cure of	19, 82
Epicurus, his opinion quoted	351	Ice applied to aneurism	199
Epidemics, winter	209	Ichthyology, American, cultivat-	
Epidemic, autumnal	398	ed in New-York	280
Epilepsy cured	375	Imagination, how far it may af-	
Ergot, its medical virtues	271	fect the fœtus	5
Eulogy on Dr. Rush	51	Indians of the N. W. are become	
Eupatorium Perfoliatum	73	metallurgists	152
Excavation remarkable in lime-		Inoculation for sheep-pox	231
stone rock	391	Instructions, medical	102
Femoral aneurism, operation for	197	Kirkoff Mr. converts starch into	
Fenech Mr. writes on gun-shot		sugar	85
wounds	84	Kentucky winter fever	219
Fingers lost restored	408	Kentucky, its grand cavern	399
Fishes of New-York described		Kercheval J. Dr. writes on the	
and classed	280	western epidemic	219
Fishes, great work on	410	Larynx diseased	245
Fœtus, modifications of	306	Lead of Upper Louisiana	152
Food, nourishment in the several		Lead, acetate of in epilepsy	375
kinds	84	Lectures MSS. of W. Hunter	89

INDEX.

ix

	Page.		Page.
